Application Letter

To

Mrs. Zaila C. Decin,

Professor

Polytechnic University of the Philippines

Sta. Mesa, Manila

November 3, 2017

Subject: Application for tutorship

Good day ma'am,

This is a response to the advertisement that I found in the internet which refers to your abilities to teach. I believe that I have the necessary requirements that is needed to be taken under your care.

As I grow up, my mind begins to be bombarded by the reality of life. But as a student, I believe that I have too many steps to take to know what is right and what is wrong. And of course, with that, I begin to seek whatever knowledge that I could get my hands on. But the problem is, I may have the wrong decision in doing so. I know that everyone will eventually find their true self, but I just need a little guidance so that I would not be led astray due to the difficulties of life.

I hope for your response to my application, and of course, I promise to do my best to be as a student.

I thank you for your time

John Patrick S. Siobal

Application Letter

Mrs. Zaila C. Decin,

Professor

Polytechnic University of the Philippines

Sta. Mesa, Manila

November 3, 2017

Subject: Doctor application

Good day ma'am,

This is a response to the advertisement that I found in the newspaper which seeks additional manpower in our industry in the field of medicine. And I believe that I'm qualified for that.

A lot of people are becoming sick and wither because they don't get the proper medical attention that they need. And since there's no one to take care of them, someone must be of hand in order to achieve wellness. With my years of research and practical exercises about diseases and emergency response, we can somehow ease the mind of a sick person. I would gladly help those who are in need and be different from some doctors who became one just to take profit.

I'm looking forward for your response , and of course, I'll do everything in my power to take actions out of my words.

I thank you for your time

John Cedrick S. Siobal
